Google Video Beta, Windows Live Beta, Yahoo Mail Beta, Skype 2.5 Beta, Microsoft Everything Beta ... 2006 is shaping up as the year of the not-quite-finished. Is beta bugging the heck out of you yet?

No, as far as I can tell they're all pretty much finished anyway

■ 7%

Yes, they might sound good but most are full of infuriating glitches

■ 24%

No. Buggy or not, it's great having early access to the latest apps

15%

Yes! Just give me a finished product for God's sake
